

TECHNICAL DATA SHEET

JAKOZY

Commercial name: JAKOZY

Common name: Bio stimulant included Potassium

Description: bio stimulant based on free amino acids from plant source.

Composition:

PARAMETER	SPECIFICATION
Appearance	Liquid
Color	Light green
Density	1.2 g/cc
PH	6 – 6.5
Amino acids plant source w/v	5%
Water soluble K ₂ O	5%
Water and Inert ingredients	90%
Packaging	1 lt, 5 lt, 20 l, 50 lt, 100 lt, 500 lt & IBC 1000 lt

Product functions:

- Improve soil structure.
- Improve nutrients uptake by root system.
- Improve root development and seed germination.
- Reinforce photosynthesis and respiration.
- Increase yield and improve quality

Physical and Chemical characteristics:

Appearance	Liquid
Color	Light green
Density	1.2 g/cc
PH	6 - 6.5
